

Rautster

picnic-løsninger

Rautster-serien består av flere modeller av picnic-bord med spennende design og holdbare materialer. Bord- og benkflatene kan leveres med Thermoask spiler, perforerte stålplater, strekkmetall eller HPL (høytrykkslaminat).

Rautster finnes som en tradisjonell løsning med to benker (plass for 4 eller 6) eller som smalere variant med bare en benk. Denne fungerer utmerket ved utsiktsplasser eller der hvor plassen er begrenset.

Universall utforming ivaretas ved å benytte modellene hvor benkonstruksjon på den ene kortenden gir plass til en rullestolbruker. Rautster gjør det enkelt å skape møteplasser ved alle slags miljøer.
