

Pryd rekkverk

Pryd er et rekkverk som både er funksjonelt og dekorativt. Den genuine smijernfølelsen gir harmoni og karakter. Konstruksjonen med moduler i firkantet rør er sterk og robust. Et antall varianter gir rom for individuell tilpasning.

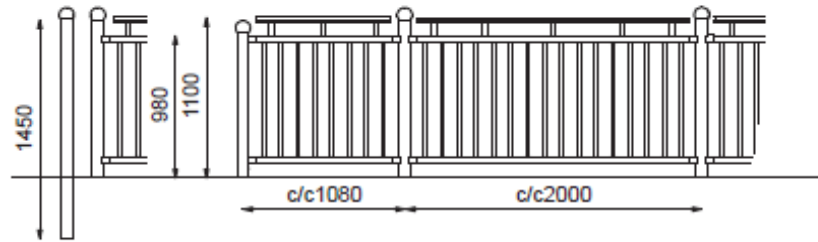

Enkel montering.

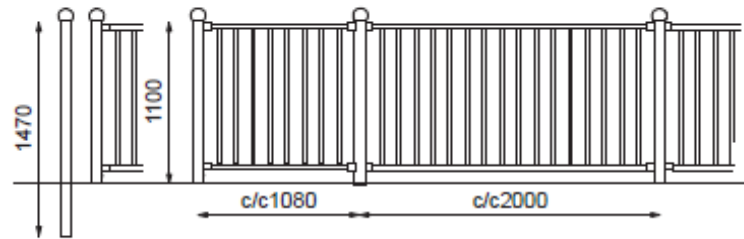

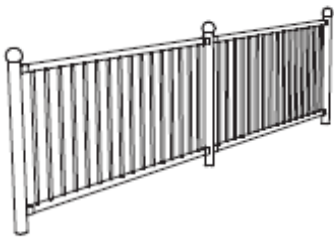

Spjeldmodul

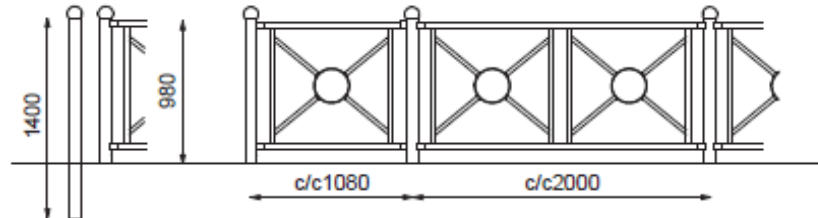

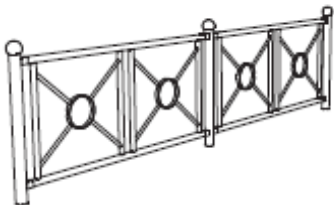

Spjeldmodul hevet med trebjelker

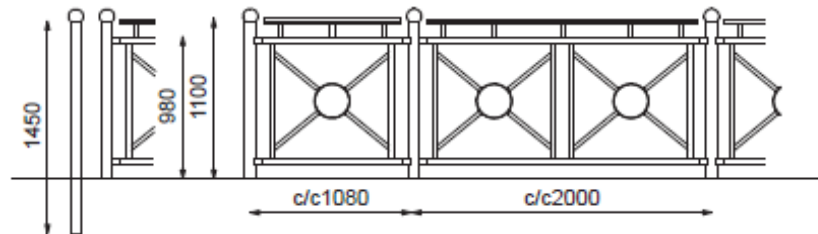

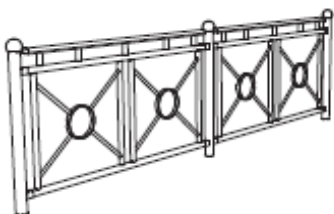

Spjeldmodul h=1100mm

Solmodul

Solmodul hevet med trebjelker

Lengde: c/c 1080 / 2000 mm

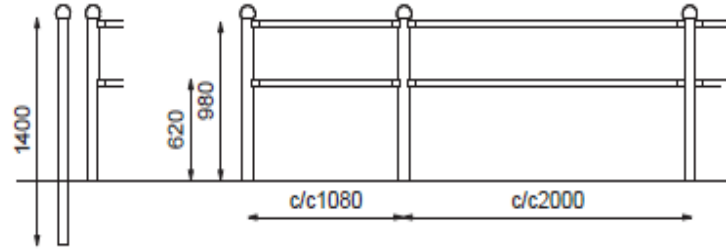

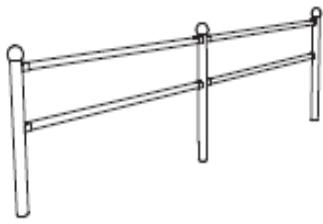

Høyde: 980/1100 mm

Diameter: Stolpe: 76 mm

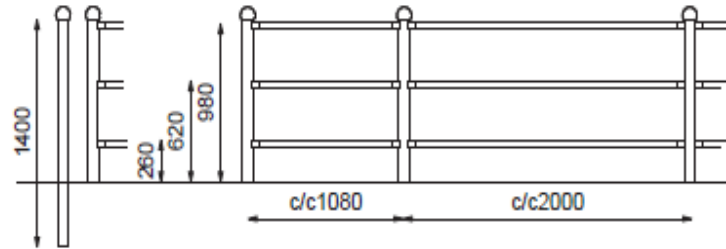

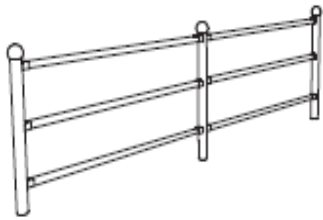

Materiale: Stål. Varmgalvanisert og kan pulverlakeres

Montering: Nedstøp, bolting
